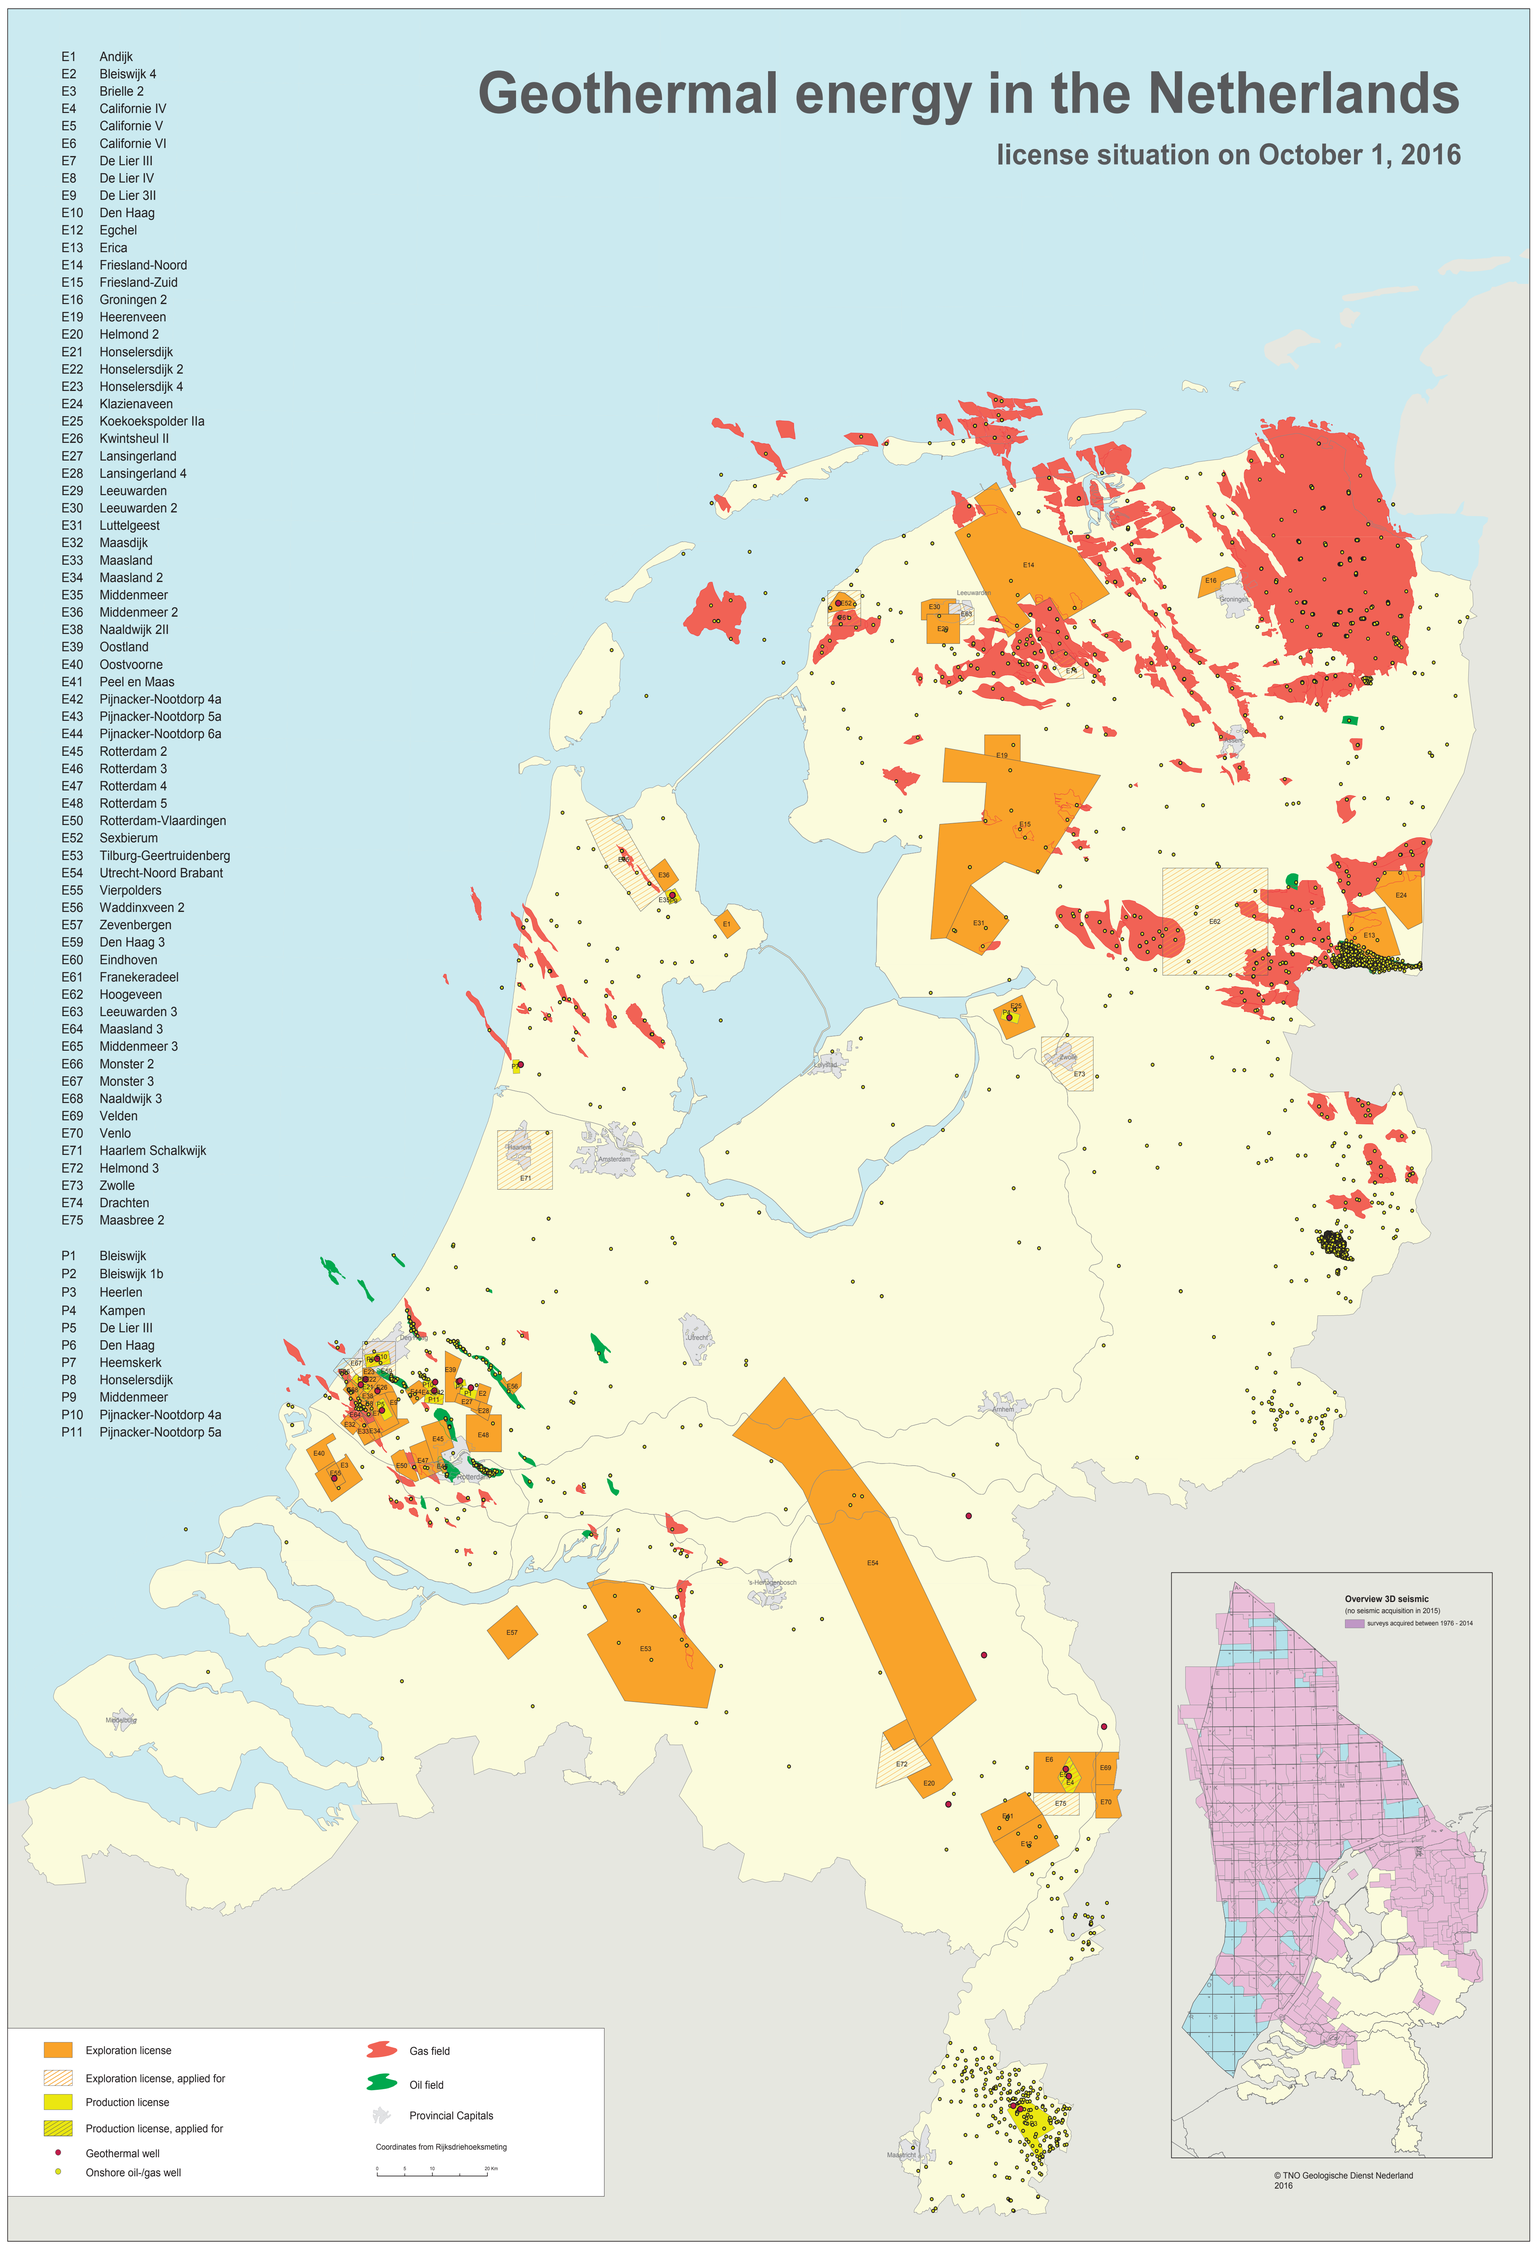
Dutch Geothermal Development

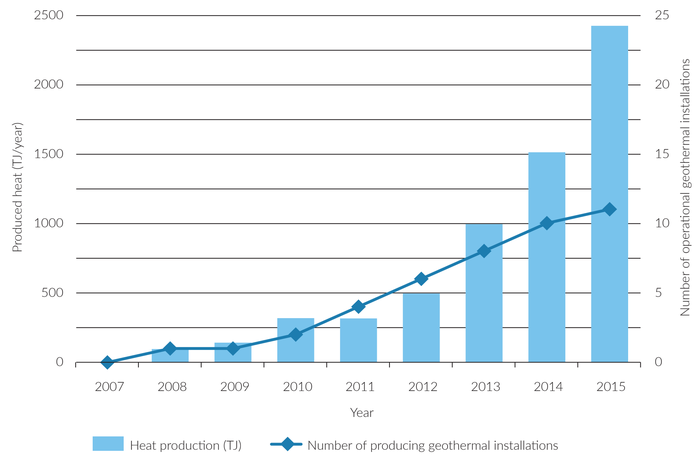
The other energy resource from the subsurface



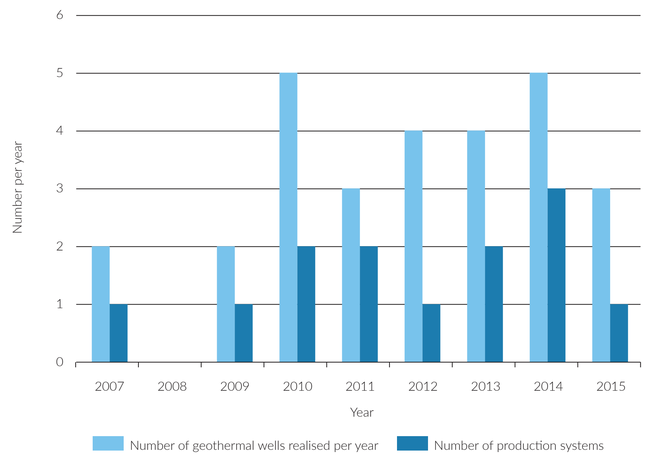
Geothermal exploration and production licences

Geothermal installation of Greenwell Westland (Courtesy J. van der Molen).

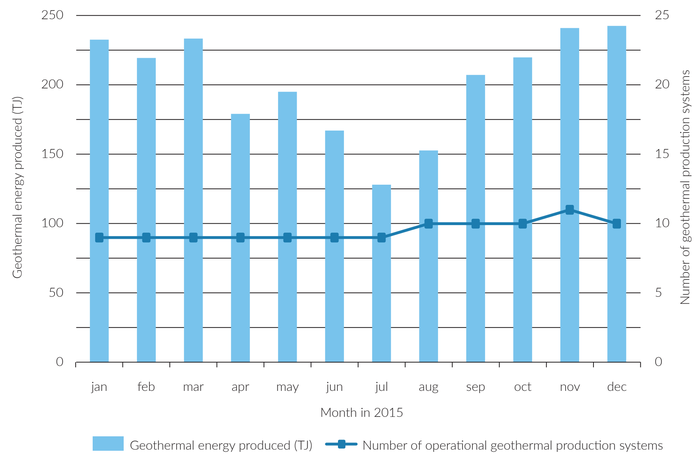
Annual production of geothermal energy (TJ/year)



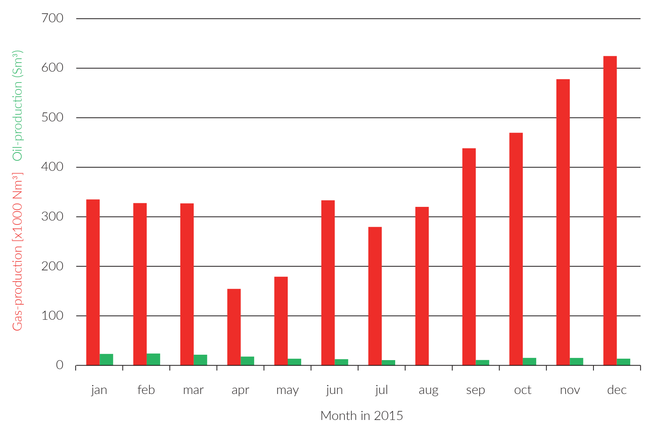
Number of geothermal wells completed per calendar year and number of installations completed since 2007



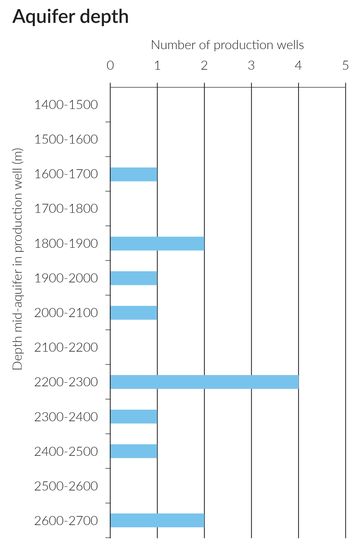
Monthly production of geothermal energy (TJ) and the number of geothermal energy production systems contributing to the reported production



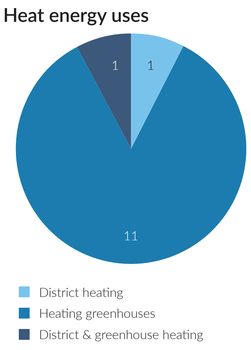
Volumes of hydrocarbons co-produced with geothermal energy



Aquifer depth



Heat energy uses



Productive interval stratigraphy
